

NATURE CAT

DIY Photobooth

Dec 6, 2018

90 min activity

Make a memorable backdrop for your birthday party guests to use for their fabulous photos.

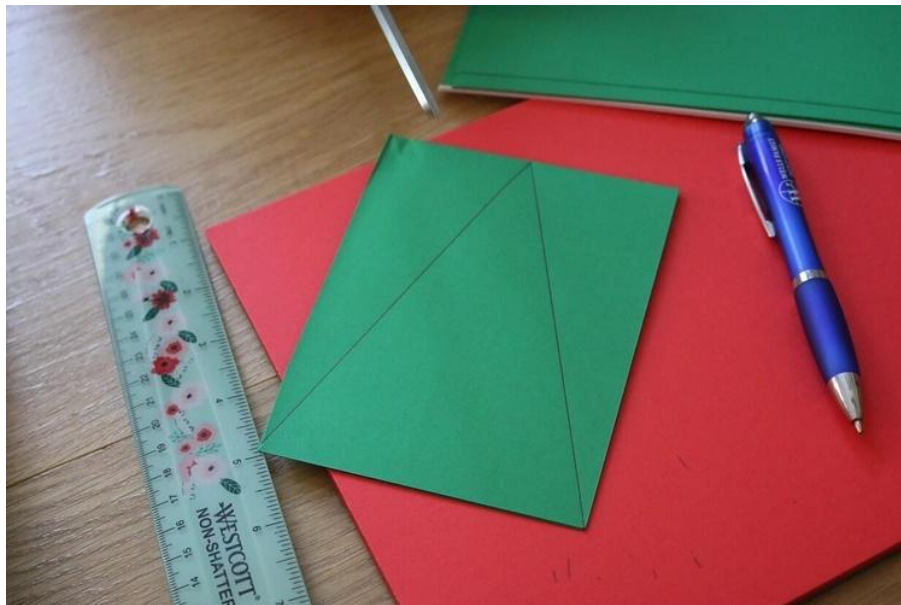

Materials

- ☐ Scissors
- ☐ Glue
- ☐ Packing tape or other strong tape
- ☐ Green cardstock or construction paper
- ☐ Twine
- ☐ Kraft Paper or large size construction paper
- ☐ Blue Wrapping Paper
- ☐ Bucket filled with twigs, pinecones, leaves, etc. to be used as props
- ☐ Recycled paper and/or boxes if available
- ☐ Nature Cat Happy Birthday Banner printable (PDF)
- ☐ Nature Cat Photo Props printable (PDF)

Directions

- 1** Tape or otherwise secure the Kraft paper or large construction paper backing on the wall where you plan to host the photo booth.
- 2** Cut several pieces of twine so that they are the same height as your backdrop Kraft paper.
- 3** Make your garland: First, cut triangles out of the green paper to create your "trees." Then use tape (or glue) to attach several evenly-spaced, green triangles to each strand of twine.

4 Tape each strand of twine to the top of the Kraft paper so that you have several evenly-spaced garlands hanging down in front of the paper. If it is windy, you may want to tape in several places for each strand of twine.

5 Cut a strip of blue wrapping paper so that it is the same width as your Kraft paper. Then cut a wavy line into the top of the wrapping paper to resemble water. Glue or tape the "water" onto the bottom of the backdrop.

6 Tape the Nature Cat Happy Birthday banner across the top of your Kraft paper backdrop.

7

Add the Nature Cat Photo Props printable to your prop bucket.

8

Don't forget to get a group picture of your party guests!
